# Welcome to Behavioral Crossroads

We provide a variety of counseling and support services to individuals living in South Jersey. We work with individuals who need help with traditional mental health and substance abuse outpatient care, but do not have significant enough symptoms, time or lifestyle commitments to require psychiatric hospitalization or in-patient substance use rehab or detox.

### **Outpatient Detox** (WM – Withdrawal Management)

Designated for individuals who want or need to be close to work or home. This minimizes the stigma associated with addiction treatment. BC provides short-term (generally 5 days or more) of medication assisted detoxification.

### **Partial Care MH & SA** (PHP – Mental Health & Substance Abuse)

Services are designed for adults needing a daily structured treatment program to address his or her substance abuse and/or mental health concerns. A total of 20-30 hours of treatment services will be provided weekly about 5-6 hours a day Monday - Friday.

### **Intensive Outpatient** (IOP)

Services are designed for an adult who can benefit from professional treatment more than once per week to address his or her substance abuse or co-occurring mental health concerns. A total of 10 hours of treatment services will be provided weekly.

### **General Outpatient** (GOP)

Services are designed for an adult who can benefit from professional treatment 1-3 hours per week to address his or her substance use and mental health concerns.

**Individualized  
treatment  
Designed for you**
